About Me

Fourth-year B.Tech student in Information Science and Engineering with hands-on experience in Machine Learning, Full-Stack Web Development, and AI-powered applications. Proficient in Python, JavaScript, Flask, and MongoDB, with a solid foundation in data structures, algorithms, and problem-solving. Passionate about building scalable, intelligent solutions and leveraging technology to address real-world challenges.

Skills

- Programming & DSA: **Python, Java, C**
- FrontendDevelopment:**HTML, CSS, JavaScript, eel framework,streamlit**
- Machine Learning & Deep Learning: **Neural Networks, TensorFlow, Sci-kit learn, pandas,numpy**
- **Exploratory data analysis EDA**
- **REST API/ RESTful Services**
- **SQL, MongoDB**

Internships

Machine Learning Intern – SmartED Innovations(Microsoft)

- Completed a hands-on internship in Machine Learning, working on real-world AI concepts and applications.
- Performed data cleaning, preprocessing, validation, and exploratory data analysis (EDA) on datasets to support machine learning workflows and analytical model development.
- Demonstrated strong enthusiasm, quick learning ability, and active contribution throughout the internship.
- Developed foundational understanding of AI-driven solutions and problem-solving techniques.

IBM SkillsBuild Trainee (AI / Professional Skills Program)

- Completed the IBM SkillsBuild program focused on career readiness and emerging technologies.
- Gained exposure to industry-relevant skills including AI fundamentals, digital tools, and professional development.
- Strengthened problem-solving, communication, and self-paced learning abilities.
- Earned completion certification demonstrating commitment to continuous learning.

Infosys Springboard / Virtual Internship

- Completed training in emerging technologies such as AI, Machine learning.
- Developed **KnowMap (Cross domain Knowledge Mapping Tool)** to extract entities and relationships and generate interactive knowledge graphs for structured information analysis.
- Built an applied project **MedGraphX**, addressing **real-world challenges in food and drug interactions** by providing intelligent insights and proposed solutions for safer healthcare decisions.

Projects

1. **CHITTI-Voice-Assistant-AI**

Tech Stack: Python, Eel, Pyttsx3, SpeechRecognition, Google Gemini API, HTML/CSS/JAVASCRIPT

- Built a personal AI voice assistant that uses Natural language processing **NLP** to understand and respond to user commands through speech.
- Integrated **Google Gemini AI** for contextual, natural conversations and intelligent query handling.
- Implemented speech recognition, text-to-speech, and dynamic app/web control features.

2. **Sign Language Detection System**

Tech Stack: Python, OpenCV, MediaPipe, Scikit-learn, Machine Learning

- Engineered a real-time Computer Vision-based **Sign Language Detection System** using OpenCV and MediaPipe for accurate gesture recognition. Built and trained a Random Forest classification model using Scikit-learn for **real-time detection**, achieving **high accuracy** in recognizing **ASL gestures (A–Z)**.
- Developed an end-to-end pipeline for data collection, preprocessing, model training, and live prediction with low-latency performance. Enhanced usability with real-time visualization and structured the project for scalability and future extensions

3. **MedGraphX – AI-Powered Medical Assistant**

- **Tech Stack:** streamlit, flask, networkX, MySQL, python, scikit-learnDeveloped an AI-powered Healthcare Assistant (MedGraphX) leveraging Knowledge Graphs to analyze drug–food interactions based on patient conditions.
- Utilized Machine Learning and NLP to generate AI-driven insights, with interactive data visualizations for enhanced user understanding.

Education

B.Tech in Information Science and Engineering

M S Ramaiah University of Applied Sciences, Bangalore Year: 3rd Year **CGPA**: **8.25**

Class 12 (Higher Secondary Education) Whitefield Global Pu College, PUC — 2023 Percentage: 75%

Class 10 (Secondary Education)

New Baldwin International School, ICSE — 2021
Percentage: 90%

Leadership Experiences

- Committee Member, **Cynergy Coding Club** – Organized **coding sessions** and conducted **LeetCode practice workshops** to enhance students' problem-solving skills.
- Coordinated events at **National Techfest (RUAS)**, including active involvement in coordinating in a hackathon.
- Served as Head Student Coordinator – Jury Cell, **IIC Regional Meet 2025**, collaborating with panel coordinators and jury members, ensuring smooth event flow and effective participant management.
